The book mirrors the content of 7/1 and 7/2 and provides extension material linked to these resources. Particularly appropriate for developing and extending the requirements of the new National Framework for Teaching Maths. There is a strong focus on mental work and non-calculator questions. Also contains non-National Curriculum areas designed to provide stimulating and challenging activities. Look out for Escher and Limping Seagulls for example! Written by best-selling and experienced authors. Study guide for year 7 in the subject of mathematics. This book serves as a structured revision program for all students undertaking Year 7 Mathematics. It has been designed to help students revise for class tests, half-yearly and end-of-year exams. It is structured to consolidate students' understanding in line with Australian Curriculum outcomes. Through concise Study Notes, Skills Checks, Intermediate/Advanced Tests, Sample Exam Papers and Worked Solutions, this book will ensure that your child is fully prepared for class exams. Test questions are provided for each chapter of this textbook, together with detailed mark schemes to make assessment easy. Two versions of each question are provided. One allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organized by unit/chapter is also included in this resource. This will help the aspirants to assess the pattern of the real examination paper, practice and prepare for cracking the top ranks.
