Renowned landscape designer Gilles Clément's lyrical text gently teaches young readers not only what's involved in planning a garden, but how plants, insects, and humans interact all year long to make the garden thrive. Along the way, we witness a forest of mushrooms, the miracle of eggs, and the incredible universe found in a single flower. An intoxicating, stunning story of self-destruction and redemption set against the vibrantly painted underworld of New York City, from the critically acclaimed author of *White Fur*. Lee, hedonistic yet earnest, is on the cusp of a breakdown. Her wild nights out and her management shifts at a Tribeca restaurant are fueled by cocaine and pink champagne, and her glamorous lifestyle is financed by wealthy older men who shower her with gifts. Once an aspiring painter, she can't remember the last time she touched a canvas. Her old friend Belinda, a reformed party girl, has grown up and distanced herself from both Lee and the reckless lifestyle they once shared. Kai, the man she thought was her soulmate, has left her for Paris, and she is in treacherous territory with her sugar daddy, Yves. When she receives an eviction notice from her landlord, Lee is forced to acknowledge that her life is unraveling at the seams and consider the possibility that there might be meaning in life beyond what can be found in the arms of strange men and the effects of reality-altering substances. Despite her tough exterior, Lee is a vulnerable young woman trying to numb her inner turmoil with sex, drugs, and alcohol. Hypnotic descriptions of her romantic exploits and drunken nights are interspersed with nostalgic memories of her late mother, a stark contrast that alludes to an enduring innocence beneath the chaotic exterior. When Lee finds a seemingly genuine connection in Kelly, the new bartender at her restaurant who is grieving from a loss of his own, she strives to stand on her own and free herself from the grip of her debt and vices. With her signature hypnotizing, elegant prose, Libaire delves deep into Lee's intimate, toxic relationship with the city nightlife and her own

identity. "When Elise Perez meets Jamey Hyde on a desolate winter afternoon, fate implodes, and neither of their lives will ever be the same. Although they are next-door neighbors in New Haven, they come from different worlds. Elise grew up in a housing project without a father and didn't graduate from high school; Jamey is a junior at Yale, heir to a private investment bank fortune and beholden to high family expectations. Nevertheless, the attraction is instant, and what starts out as sexual obsession turns into something greater, stranger, and impossible to ignore."-- Explores significant business dealings between artists and patrons in a historical tour through the Renaissance that posits that the period's fabulous advances in culture were tied to the creation of wealth

The all-trails version of Jardine's "PCT Hiker's Handbook"--a more complete explanation of what's becoming known as The Ray Way in hiking circles.

Jardine Matheson & Co, founded in Canton on 1 July, 1832, has had a longer continuous existence than any other British, European or American business connected with the China trade. It is the only firm surviving from pre-Treaty days (before the Treaty of Nanking which opened China to foreign commerce in 1842) and it played a very important part in that process. The firm soon after moved to the newly ceded colony of Hong Kong, and ever since the firm has been associated with the island. ¿Jardines is Hong Kong¿ someone once asserted to Lord Blake ¿ an exaggeration, of course, but pardonable. And although Hong Kong has reverted to Chinese sovereignty, Jardine Matheson is likely to remain a major feature of the place and may well play a renewed role in mainland China far into the twenty-first century. Lord Blake traces the early beginnings of the firm, from William Jardine's first glimpse of Canton in 1802, through the rapid expansion and growth of the nineteenth century and into the next, leaving the story exactly half-way through the twentieth century, just as the Korean War breaks out. The early history of the firm has always been regarded as the most interesting part of the story. It, or its background, has been the subject of two fascinating historical novels: the late James Clavell's bestselling blockbuster Tia-pan (1966) and Timothy Mo's acclaimed An Insular Possession (1986).

The real story is equally exciting in the hands of one of the most distinguished historians of the twentieth century. This handbook for gamefishers covers various aspects of the fly-fishing sport and includes step-by-step techniques for casting, hooking, playing and landing trout in all kinds of waters. The book is illustrated with more than 500 trout flies tied by the author, together with photographic portraits of the type of trout that provide some of the best fishing throughout the world. Full-colour throughout,

*Reading Shakespeare Historically* is a passionate, provocative book by one of the most renowned and popular Renaissance scholars writing today. Charting ten years of critical development, these challenging, witty essays shed new light on Renaissance studies. It also raises intriguing questions about how the culture and history of the past illuminates the key social and political issues of today. Lisa Jardine re-reads Renaissance drama in its historical and cultural context, from laws of defamation in *Othello* to the competing loyalties of companionate marriage and male friendship in *The Changeling*. In doing so she reveals a wealth of new insights, sometimes surprising but always original and engrossing. At the same time, these essays also provide a fascinating account of the rise of feminist scholarship since the 1980s and the diversifying of 'new historicist' approaches over the same period. *Reading Shakespeare Historically* will fascinate and provoke students of Shakespeare and his historical age, and general readers with an urge to understand how the culture and history of our past illuminates the key social and political issues of today.

This book is a comparative history that explores the social, cultural, and political formation of the modern nation through the construction of public schooling. It asks how modern school systems arose in a variety of different republics and non-republics across four continents during the period from the late eighteenth century to the early twentieth century. The authors begin with the republican preoccupation with civic virtue - the need to overcome self-interest in order to take up the common interest - which requires a form of education that can produce individuals who are capable of self-guided rational action for the public good. They then ask how these educational preoccupations led to the emergence of modern school systems in a disparate array of national contexts, even those that were not republican. By examining historical changes in republicanism across time and space, the authors explore central epistemologies that connect the modern individual to community and citizenship through the medium of schooling. Ideas of the individual were reformulated in the nineteenth century in reaction to new ideas about justice, social order, and progress, and the organization and pedagogy of the school turned these changes into a way to transform the self into the citizen. Montreal and Quebec City are like outposts of European culture in the heart of Canada just hours from the US, distinctively Canadian but with a palpable French spirit. *The Rough Guide to Montreal* takes you through everything in great detail, providing informative and entertaining accounts of what the city has to offer in terms of attractions, restaurants, accomodation and its vibrant nightlife. There is extensive coverage of Quebec City, as well as the snow-capped peaks of the Laurentian Mountains and Eastern Townships, all accessible day-trips from Montreal. In each chapter there are detailed maps and plans covering every

neighbourhood. The contexts section includes a useful French language section and glossary. Sir William Jardine was a key figure in the history of Victorian-era science. He owned the finest private natural history museum and library in Britain and made natural history widely available by issuing the *The Naturalists' Library*, forty small, affordable volumes on birds, mammals, fish, and insects. Yet, until now, no comprehensive biography of him existed. This book explores the history of this singular man, his impact on the study of natural history, and its popularization through his publishing efforts. A sober hedonist's guide to living a decadent, wild, and soulful life--alcohol-free. In a culture where sipping "rosé all day" is seen as the epitome of relaxation, "grabbing a drink" the only way to network; and meeting at a bar the quintessential "first date," many of us are left wondering if drinking alcohol really is the only way to cultivate joy and connection in life. Jardine Libaire and Amanda Eyre Ward wanted to live spontaneous and luxurious lives, to escape the ordinary and enjoy the intoxicating. Their drinking, however, had started to numb them to the present moment instead of unlocking it. Ward was introduced to Libaire when she first got sober. As they became friends, the two women talked about how they yearned to create lives that were Technicolor, beautifully raw, connected, blissed out, and outside the lines . . . but how? In *The Sober Lush*, Libaire and Ward provide a road map for living a lush and sensual life without booze. This book offers ideas and instruction for such nonalcoholic joys as:

- The allure of "the Vanish," in which one disappears early from the party without saying goodbye to a soul, to amble home under the stars
- The art of creating zero-proof cocktails for all seasons
- Having a fantastic first date while completely sober
- A primer on setting up your own backyard beehive, and honey tastings

For anyone curious about lowering their alcohol consumption or quitting drinking altogether, or anyone established in sobriety who wants inspiration, this shimmering and sumptuous book will show you how to keep indulging in life even if you stop indulging in alcohol. Both for weekend breaks and longer stays, The Rough Guide to Paris fits the bill. Looking outward for confirmation of who they were and what defined them as "civilized," Europeans encountered the returning gaze of what we now call the East, in particular the attention of the powerful Ottoman Empire. Global Interests explores the historical interactions that arose from these encounters as it considers three less-examined art objects—portrait medals, tapestries, and equestrian art—from a fresh and stimulating perspective. As portable artifacts, these objects are particularly potent tools for exploring the cultural currents flowing between the Orient and Occident. Global Interests offers a timely reconsideration of the development of European imperialism, focusing on the Habsburg Empire of Charles V. Lisa Jardine and Jerry Brotton analyze the impact this history continues to have on contemporary perceptions of European culture and ethnic identity. They also investigate the ways in which European culture came to define itself culturally and aesthetically during the century-long span of 1450 to 1550. Ultimately, their study offers a radical and wide-ranging

reassessment of Renaissance art.
