work - the result of a lifetime of intellectual  
engagement - one of the developing world's  
most famous thinkers reflects on the times we  
live in. He argues that US hegemony has  
reached a dangerous new level under George  
Bush Jr, and that the US President's hubristic  
militarism will both lead to a never-ending cycle  
of wars and block all hopes of social and  
democratic progress, not just in developing  
countries, but in the North as well. Samir Amin  
also rejects the highly ideological notion that  
the current form of neoliberal capitalism -  
'really existing capitalism' in which imperialism  
is an integral and permanent part - is an  
inevitable future for humanity, or in fact  
socially or politically tolerable. At the same  
time, he is not opposed to globalization as such;  
indeed he believes the whole world today is  
irrevocably connected, and that solidarity in  
diversity is the key to the struggle for a better  
world. In the body of the book, Amin provides a  
perspicacious analysis of tendencies within the  
rich countries - the US, Europe and Japan; the  
rising powers - China and India; the likely  
future trajectory of post-Soviet Russia; and the  
developing world. The central question he  
pursues is whether there are other hegemonic  
blocs that may emerge in time to circumscribe  
American power, and constrain free market  
capitalism and force it to adjust to demands  
other than its narrow central economic logic.  
This important and thought-provoking book  
identifies the key global campaigns Samir feels  
progressives should launch around the world.  
'Another world is possible.' But, he warns, the  
diverse citizens' movements loosely gathered  
together in the World Social Forum must bite  
the political bullet and recognise that they can  
only transform the world if they seek political  
power. First series, books 1-43, includes "Notes  
on U.S. reports" by Walter Malins Rose. USA
